SUBJECT: - VERY HOT AND DRY WEATHER PREDICTED DURING CURRENT WEEK

The Pakistan Meteorological Department (PMD) has issued Weather Forecast today i.e. 16th May, 2016 (1500 PST), which is as under:

“Met office has warned about very hot and dry weather ahead during the week all over the country. The low elevation agricultural plains of Punjab, KP, Balochistan and Sindh will be the centre of heat where day temperatures will cross over 45°C and central parts will touch a critical level of 50°C. Temperatures in mountainous areas of GB and AJK will also rise by 4-5°C above average resulting into rapid melting of snow and glaciers.

Due to continuity of sea breeze, the coastal areas of Pakistan will not experience any sharp rise in temperature. Day temperatures in Karachi will generally remain below 40°C; wind will continue blowing from sea with variable speed with comfortable level of humidity.

Keeping in view the intense heat and dry weather, the public should take care of heat stroke and dehydration as advised by health authorities.”

2. Accordingly, I am directed to request you to kindly ensure that all necessary measures for effective response are taken.

(Ajay Kumar Sewani)

Assistant Director(Operations)
