Karachi, dated: 28<sup>th</sup> October, 2019

The Commissioner(s),  
Karachi and Hyderabad

Subject: **SUPER CYCLONIC STORM "KYARR" IN THE CENTRAL ARABIAN SEA**

I am directed to refer to the subject noted above and to enclose herewith a copy of Cyclone Advisory-6 issued by Pakistan Meteorological Department (PMD) dated 28.10.2019 (09:15 PM), whereby it has been informed that The Super Cyclonic Storm over Eastcentral Arabian Sea has tracked northwestward during last 12 hours and now lay centered near Lat 18.6°N and Long 64.2°E with maximum sustained surface winds of 230-240 kmph gusting 265 kmph, at about 750 km southwest of Karachi and 1080 km northeast of Salalah (Oman). Kyarr is likely to move further northwestwards during next 36 hours and then turn southwestward. **There is no direct threat to any coastal area of Pakistan; however, due to exceptionally strong winds around the system's centre and roughness in sea, low-lying islands may suffer by water intrusion due to high tides. Also, scattered DS/TS-rain is expected in lower Sindh and along Makran Coast during Wednesday-Friday. Fishermen are advised not to venture in open sea till 31 Oct.**

2. It is therefore requested to remain alert during the predicted rains and take all precautionary measures accordingly, please.

(M. Shayyan Shah)  
Deputy Director (Ops)

## Super Cyclonic Storm 'KYARR' in Central Arabian Sea

The Super Cyclonic Storm over Eastcentral Arabian Sea has tracked northwestward during last 12 hours and now lay centered near Lat 18.6°N and Long 64.2°E with maximum sustained surface winds of 230-240 kmph gusting 265 kmph, at about 750 km southwest of Karachi and 1080 km northeast of Salalah (Oman). Kyarr is likely to move further northwestwards during next 36 hours and then turn southwestward.

There is no direct threat to any coastal area of Pakistan; however, due to exceptionally strong winds around the system's centre and roughness in sea, low-lying islands may suffer by water intrusion due to high tides. Also, scattered DS/TS-rain is expected in lower Sindh and along Makran Coast during Wednesday-Friday. Fishermen are advised not to venture in open sea till 31 Oct.

Tropical Cyclone Warning Center of PMD is regularly monitoring the intensity and track of this Tropical Cyclone. The concerned authorities are requested to keep them abreast of the system updates through PMD website.
