Karachi, dated: 29th October, 2019

The Commissioner(s),
Karachi and Hyderabad

Subject: **SUPER CYCLONIC STORM "KYARR" IN THE CENTRAL ARABIAN SEA**

I am directed to refer to the subject noted above and to enclose herewith a copy of Cyclone Advisory-7 issued by Pakistan Meteorological Department (PMD) dated 29.10.2019 (11:54 AM), whereby it has been informed that the Super Cyclonic Storm over central Arabian Sea has tracked northwestward during last 12 hours and now lay centered at 0800 PST near Lat 19.2°N and Long 63.4°E with maximum sustained surface winds of 230-240 kmph gusting 250kmph, at about 730 km southwest of Karachi, 665 km of Gwadar and 1012 km northeast of Salalah (Oman). Kyarr is likely to move further northwestwards till tomorrow and then turn southwestward. There is no direct threat to any coastal area of Pakistan; however, due to exceptionally strong winds around the system's centre and roughness in sea, low-lying islands may suffer by water intrusion due to high tides. Also, scattered DS/TS-rain is expected in lower Sindh and along Makran Coast during Wednesday-Friday. Fishermen are advised not to venture in open sea till 31 Oct.

2. It is therefore requested to remain alert during the predicted rains and take all precautionary measures accordingly, please.

(Maqsood Hussain Soomro)
Assistant Director (Ops)

Copy forwarded for kind information and necessary action to:

1. The Secretary, Livestock & Fisheries Department, Govt. of Sindh, Karachi
