

SEVERE HEATWAVE PREDICTED DURING EID HOLIDAYS AND COMING WEEK

- Pakistan Meteorological Department has informed that a high pressure likely to develop over the country on 07th June and is expected to grip most parts from 08th June. Under the influence of these meteorological conditions, day temperatures are likely to remain 04 to 06°C above normal in Southern half (Upper and Central Sindh) from 07th to 12th June
- Due to severe heatwave conditions, general public especially children, women and senior citizens are advised to take precautionary measures
- Avoid exposure to direct sun light during the day time and remain hydrated.
- Judicious use of water is requested in all fields of life.
- Farmers are advised to manage their crop activities accordingly.
- Start Network (READY Pakistan) and its partner organizations are actively responding to the ongoing heatwaves across various districts of Sindh, including Jacobabad, through Heatwave Anticipatory Action initiatives. These efforts include preparedness support by establishing heat stabilization centers at DHQ Jacobabad, THQ Garhi Khairo and RHC Mirpur Burriro. The response also involves the capacity building of 100 health-care providers, frontline workers, and paramedics on heatstroke case management. Additionally, over 200 volunteers have been trained on climate change, the impacts of heatwaves, community-level preventive measures, and first aid for heatstroke. Public awareness has been further enhanced through the publication and distribution of IEC materials, along with awareness campaigns and early warnings disseminated via social media and other communication platforms.
- 11 Humanitarian Partners conducted awareness sessions on heatwave impacts, distributed Information, Education & Communication (IECC) material, displayed Banners and awareness raising through print, electronic, social and local media-content approved by PDMA
